

Fill the Tank!

Can you believe it is summer? Summer is our time for taking vacations. How many of you have a road trip planned? Americans love their cars and we love to drive. For those of you taking road trips you spend time planning out the trip so that you can get to your point of destination with the least amount of distraction possible.

If you have kids your planning is a bit more meticulous than those that don't have kids. You have to pack food, something to keep them occupied so that you don't have to repeatedly hear, are we there yet? Advanced planning helps make the trip more enjoyable and successful.

Would you leave the house on an empty tank? Of course not. Why stop before you even get started to fuel up the car? To maximize your trip you plan ahead and that includes filling up the tank before you leave the house. The last thing you want is for your trip to be ruined by running out of fuel.

You might not realize this but here at YOUR CHURCH NAME we need fuel too. We have some amazing "trips" planned this summer. From actual mission trips to summer camps to VBS our summer is filled. To accomplish all that we have need to be fully funded. It costs money to hold these events. We depend upon the generosity of people like you to keep our tank full of funds so we can do all the amazing things we have planned. In addition to that we like to keep paying the electric bill so you can sit in a cool auditorium!

Your generosity keeps our tank full! When you give here you are assuring that our life changing mission gets accomplished. Just as you would hate to run out of gas on your trip we too want to get to where we feel God wants us to go. So this morning as we take up the offering help us keep our tank full so we can continue to make a difference not only here in our community but literally around the world.
